END CUT COLOR TOUCH-UP

RUST-OLEUM® TEXTURED SPRAY PAINT

SILVERMINE
The First Brand of Mortarless Stone Veneer

Cutting Silvermine Stone panels is a part of every Silvermine Stone project. While the panels are tinted to help hide end cuts, periodically you may want to touch-up end cut areas with paint. Rust-Oleum® textured multi-color spray paint is an option when looking to do so.

Here are the best Rust-Oleum® color matches for each Belterra Collection stone color:

SILVERMINE	RUST-OLEUM
Dakota Sunset **Monument Valley**	**Desert Bisque**
Evening Gray **Marin Fog**	**Aged Iron**
Dover Cliff **Aspen Peak**	**Caribbean Sand**
