SILVERMINE®

The First Brand of Mortarless Stone Veneer™

Silvermine's® patented and intuitive installation & flashing system provides a safe and professional finish trusted by professionals. Not only is it the only brand to provide protection from moisture by keeping the water out with a patented flashing system, but the industry leading number of stone layouts & real stone aesthetics helps minimize the look of repeating patterns.

CRAFTSMAN-STYLE CURB APPEAL

Crafted with the moisture protection and real stone aesthetics in mind, Silvermine Stone allows you to conveniently add character to your home. With custom accessories that blend perfectly with the Silvermine Stone's Belterra Collection®, give your home the finishing touch it deserves.

THE SILVERMINE STONE® ADVANTAGE

1 EASY INSTALLATION

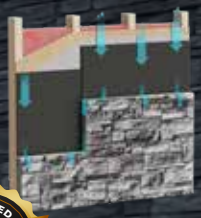

- Flat rectangles (no tabs or grooves to align)
- Fast corners (pre-cut & laid out)

Installation Overview

2 MOISTURE PROTECTION

- Only brand of mortarless stone that keeps moisture away from the wall structure using a patented flashing system
- This patented system provides 8" of flashing per stone panel, protecting the home from moisture damage, mold, mildew, and the effects of freezing/thawing

Moisture Protection Demonstration

PATENTED Flashing System

3 REAL STONE AESTHETICS

- Silvermine Stone® launched the Belterra Collection in 2020, featuring a realistic ledgestone aesthetics available in 6 popular colors
- Over 50 unique panel designs, cast from CNC milled master panels to ensure quality and precision
- High definition coloring that is cast into the stone with tinted batch coloring
