SILVERMINE

MODERN Collection

The Modern Collection by Silvermine Stone pays homage to the mid-century modern design style, featuring sleek lines and geometric shapes. The monochromatic coloring and long, wide stone orientation complements popular home styles and color palettes in today's architecture.

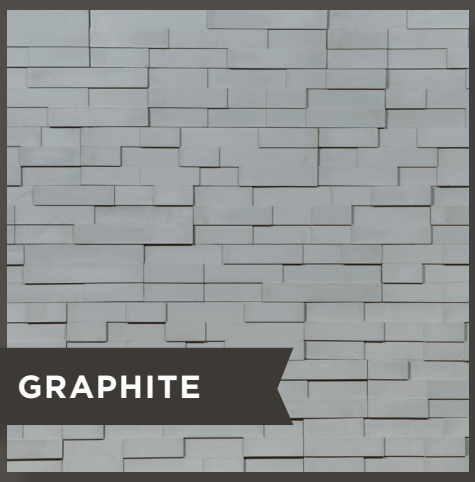

BENEFITS OF SILVERMINE STONE

RAINIER

A soft limestone with natural tan and grey undertones.*

GRAPHITE

A subtle medium grey with ashy hues*

Learn More about Installation

Learn More about Moisture Protection

01

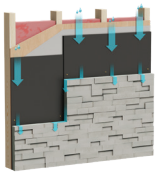

Easy Installation

- Can be installed with basic carpentry skill & tools (drill, saw and level)
- Flat rectangles - no tabs or grooves to align
- Fast corners - pre-cut panels with interlocking inside and outside corner application

02

Patented Moisture Protection Technology

- Each stone panel provides 8 inches of flashing which **protects the home from: moisture damage, mold, mildew, effects of freezing/thawing**
- The only brand of mortarless stone with a flashing system that creates a tight seal on the wall, moving water down the outer edges of each piece, keeping water away from the home

03

Contemporary Aesthetic

- A practical option for accent walls and other decorative features on homes.
- Monochromatic, geometric panels bring an elevated design flare to any home

AN EXCELLENT CHOICE FOR COMMERCIAL APPLICATIONS

In addition to residential applications, the Modern Collection is an ideal choice for commercial applications, such as offices and store fronts, offering a sleek, modern look that enhances curb appeal, provides duability, and reinforces a professional image.

*There will be a subtle level of natural color variations from panel to panel, replicating the hues of natural stones. The Modern Collection can be painted to create a custom or more uniform appearance.
